The company "A.Hasapi - A.S.Sargentis & Associates" was established in 1989 and is represented by Anna Hasapi and Angelos Sargentis.

Having already more than ten years of action since its establishment, the firm "A.Hasapi - A.S.Sargenti and Associates" has gained quite a wide experience in architectural design and project management.

The company is composed by a group of highly dynamic and experienced architects and undertakes all kinds of architectural projects, urban planning, landscape design, interior design, as well as, restoration and renovation of historical buildings and monuments.

Their architecture responds to the specifics of the Site, Function and the Client.
"Clarity of conception and coherence are the major interests in which we concentrate".
Use of geometry, integration to the context, sensitive use of materials and technology are the guidelines of their dynamic compositions and quality of space.

The firm's activity covers diverse programmes from both public and private domain, from the stage of preliminary design to the supervision of work, being specialized in the design of hospitals and Health & Welfare buildings (clinics, rehabilitation centers etc), numbering more than 50 such projects.

Cooperation with specialists in related fields whenever necessary (structural and mechanical engineers, surveyors, economists etc), assures an efficient and complete solution to all the projects.

The company has also participated in several national and international competitions and gained prizes and mentions.

In 1993 they started a collaboration with a Romanian firm, in order to respond to some large commands in Romania by Greek companies.

After a few successful works together, they created an affiliated company - "DASA ARCH" - that increased the potentiality of the office and has already undertaken several projects mostly housing, banks and office buildings.

DASA ARCH

Address: 12 General Alexandru Radovici Str., Sector 2, Bucharest - Romania
Tel: +40 21 211.20.16, 211.91.73 Fax: +40 21 211.93.08
E-mail: office@dasa-arch.ro
<http://www.dasa-arch.ro>

The architecture office DASA ARCH was founded in 2007 by the Architects Anna Chasapi, Angelos Sargentis, Daniel Paul, Diana Ionescu and Sevghin Cherim.

The main activities of the DASA ARCH office cover an extended range of designing works from urbanism (studies developed on areas of tens of hectares), architecture (a multitude of programs) and landscaping to interior design and design of furniture and decorative objects as Designer under the name DASAARCH and, at the same time benefiting from the experience of its members gathered along the past 15-16 years under other names, but always counting on the same architects of the main designing team. The main locations of these projects are both Greece and Romania.

Simultaneously, the DASA ARCH offices perform coordination of all specialties involved in each project: structural strength, installations, geo and topographic studies in collaboration with famous specialized companies.

In what the architectural programs is concerned, the office has gained remarkable experience in the following fields:

Urbanism landscaping

Residences

Office buildings

Medical centers and social welfare centers

Sports centers

Multifunctional centers

Garages

Educational institutions

Ecclesiastic buildings

Restoration

The team working in this architecture office consists of twenty architects, an economist, a lawyer and three office assistants and is proud to describe itself as a relatively young, but at the same time experienced team. Always on time when it came to deadlines, the office has been recommended and contacted very often thanks to the previous results in its activities.

A.Hasapi - A.S.Sargentis & Associates
